

tadpoles

Dear Families,

Keeping our families involved with the school has always been a priority of ours. Schoolhouse Learning Center is very excited to use a program called Tadpoles, www.tadpoles.com. It is a communication tool that will be used in the classrooms.

The Tadpoles program allows our teachers to capture special moments, take photos, and videos of the children in action as well as send you classroom information. You'll get daily reports and notes right in your email!

Each classroom will be equipped with an iPad mini or iPod touch which will be specifically used for the Tadpoles program. If you see a teacher on what looks like a phone, rest assured, they are not, as per school policy---no cell phones in the classrooms! The devices are locked down so the teachers do not have access to the internet.

We consider all information captured using Tadpoles to be a private communication between our school and our families. No personal information is shared with any external parties and as a parent you will only receive information specifically about your child.

Please let us know what email address(es) you would like for us to communicate to you via the Tadpoles. Please let us know if any of the emails change and need to be updated. We're happy to answer any questions or concerns you may have about this exciting program!

Thank you!
